Agrochemical

We have a strong presence in the Agrochemical sector, developed through building productive relationships across a national client base. We have tailored our services in response to the sector's focus on the growing export markets; which demand efficient production and assurance of capacity and quality.

We offer a range of services, which can be delivered on an individual or combined service basis.

We Offer:

- Thermal insulation;
- Access solutions;
- Grounds maintenance;
- Pest control;
- Security;
- Statutory compliance management;
- Management of working at heights;
- Protective coatings and blasting;
- Industrial and office cleaning;
- HVAC maintenance;
- Project management.

Construction

Working with national and regional construction clients on projects throughout the country. Our expertise is in the provision of access scaffolding to facilitate safe working at height during the construction phase.

Our extensive workforce and substantial stock holding of traditional tube and fittings, Kwikstage, and HAKI systems support our ability to tailor our service to meet the requirements of the different construction methods used in today's marketplace.

We Offer:

- Scaffold design;
- Contract scaffolding;
- Structural temporary support;
- Temporary roof provision;
- Scaffolding encapsulation;
- Hire & Sale;
- Traffic-pedestrian management equipment;
- Mechanical access.

Energy & Power

Our history in this sector runs in parallel with the development of power generation from coal, gas, and nuclear sources. From 1946 through to 2000, our offering was primarily focused on a single scaffolding service.

Today's multi-service offering is focused on the existing and newer renewable energy industries and incorporates supply during periods of development, maintenance and outage through to decommissioning.

We Offer:

- Access solutions and coordination;
- Design and regulatory compliance;
- Thermal insulation and leakage detection;
- Industrial cleaning;
- Protective surface coatings;
- Hazardous material handling;
- Environmental monitoring;
- Procurement;
- Safety support staffing;
- Waste management.

Food & Beverage Production

We have been operating in this sector since 1985, when we provided scaffolding services to a major UK brewer. Since then we have expanded our service offering and client base. Today we confidently service the UK food and beverage production market, whilst operating under the strictest hygiene controls detailed by the industries FDA guidance.

We Offer:

- Project planning for multi-service offering;
- Access solutions and coordination;
- Thermal insulation and leak detection;
- Industrial cleaning and containment;
- Protective surface coatings;
- Hazardous material handling;
- Environmental monitoring;
- Ground maintenance.

House Building

Working with national and regional home providers on developments throughout the country. Our expertise is in the provision of access scaffolding to facilitate safe working at height during the construction phase.

Our extensive workforce and substantial stock holding of traditional tube and fittings, Kwikstage, and HAKI systems allow us to tailor our offering to meet the requirements of the different construction methods used in today's marketplace.

We Offer:

- Scaffold design;
- Contract scaffolding;
- Temporary roof provision;
- Scaffolding encapsulation;
- Hire & Sale;
- Traffic-pedestrian management equipment.

Industrial Manufacturing

We have been associated with this sector since our inception in 1935. Covering a diverse list of manufactured products, we have developed our services to provide assistance with safe production for our clients.

Today's multi-service offering incorporates supply of our services during periods of development, maintenance, and shut-downs.

We Offer:

- Project planning for multi-service offering;
- Access solutions and coordination;
- Access design and regulation compliance;
- Logistic management and provision;
- Thermal insulation and leak detection;
- Industrial cleaning;
- Protective surface coatings;
- Hazardous material handling;
- Environmental monitoring;
- Procurement;
- Safety support staffing;
- Waste management;
- Ground maintenance.

Pharmaceutical

Having a footprint within the pharmaceutical sector since the late 1990's we continue to develop our presence, delivering to the highest standards for a number of clients in this highly regulated and mature sector.

Our current focus is on providing a multi-service offering that incorporates supply of our services during periods of development, maintenance, and shut-downs.

We Offer:

- Added value through multi-service offering;
- Access solutions and coordination;
- Access design and regulation compliance;
- Thermal insulation and leak detection;
- Industrial and facility cleaning;
- Protective surface coatings;
- Hazardous material handling;
- Environmental monitoring;
- Procurement;
- Safety support staffing;
- Waste management.

Petrochemical

We have serviced the oil and gas upstream and downstream industries, at a number of facilities since the 1960s. We recognise our clients need for insight, innovation, investment, and integrity; we have the capability, technical expertise, environmental awareness, and service offering to provide this.

We Offer:

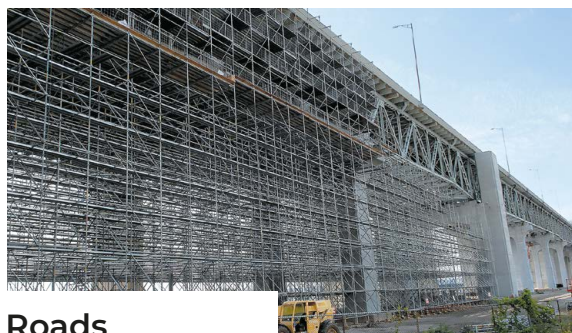

- Added value through multi-service capability;
- Access solutions and coordination;
- Access design and regulation compliance;
- Thermal insulation and leak detection;
- Industrial and facility cleaning;
- Protective surface coatings;
- Hazardous material handling;
- Environmental monitoring;
- Safety support staffing;
- Waste management.

Infrastructure

We have an extensive history in this sector supporting clients in the roads, utilities, airports, marine and railways markets.

Our experience includes:

- Roads
- Railways
- Marine
- Airports
- Utilities

Roads

M1 infrastructure project in the 1950's through to the more recently completed Aberdeen Western Peripheral Route where we provided support and scaffold structures throughout the 38-mile project.

Marine

Experience providing access, painting, and fit-out activities on HM vessels, more recently Type- 45 destroyers.

Airports

We have worked extensively across the UK airport network, most recently in Glasgow where we provided a temporary hangar for British Airway's Airbus fleet.

Railways

Experience providing access support for station and bridge upgrades, including York, Glasgow, and Edinburgh, where we supported the major redevelopments of these stations.

Utilities

Currently providing access, insulation, and logistics services to some of the major water companies.
