

Abbotswell Road

Construction of four flatted accommodation blocks for the local housing association.

Location: **Aberdeen**

Abbotswell Road - Glasgow

Construction of four flatted accommodation blocks for the local housing association.

Project Summary

Provision of a full perimeter fully boarded access scaffolding to all four blocks at the same time delivered using our Haki system offering. Our design also included stair access towers, loading towers and internal access scaffolds.

Value Engineering

Our design team worked closely with the client to ensure the timber kit could adequately support the significant tie loadings.
