

**David Wilson Homes - Dargavel Village Development**  
Provision of Kwikstage system scaffolding for new build residential property development.

Location: **Bishopton**

## David Wilson Homes - Dargavel Village Development

The David Wilson Homes development site forms part of the new Dargavel village master-plan to create over 4,000 new residential homes. Dargavel Village, located in Renfrewshire, provides residents with countryside living whilst being a short commutable distance to Glasgow.

### Project Summary

Enigma Industrial Services provide Kwikstage system scaffolding to enable the quick and efficient construction of property on-site by providing a mixture of new and refurbished stock to the client. This ensures the residential property developers, project delivery schedule is maintained, with continual scaffolding stock availability. The system comprises five basic component types which, when combined with our comprehensive range of accessories, make Kwikstage simple, safe and versatile.

### Value Engineering

Innovative plastic footplates are incorporated to ensure they remain centrally aligned whilst providing improved visibility, durability and they are also, more effective in distributing the leg load.

Enigma remains committed to maintaining a Kwikstage refurbishment program throughout 2021 and 2022 to ensure stock is always available in circulation throughout the UK. The organisation operate one of the UK's largest Kwikstage scaffolding asset bases.
