

## Molson Coors Brewery

The historic world-famous Burton-on-Trent brewery has been open since 1864 and is now operated by Molson Coors the 5th largest brewer in the world.

Location: **Burton-on-Trent**

## Molson Coors - Burton-On-Trent

The former Bass Charrington site was acquired by Coors in 2002 to become the UK's second-largest brewer. A brewery has been on the original site for over 150 years due to the unique mineral property characteristics found in the local water supply. In recent years some of the original decommissioned buildings on the brewery site with Grade II listed status have been redeveloped for residential-led mixed-use.

### Project Summary

Enigma Industrial Services provides a wide range of services including scaffolding, industrial cleaning and insulation cladding, to support the brewery site and ensure production lines remain operational. With a team of 6 Enigma operatives responsible for assisting with scheduled maintenance and emergency call-outs. Along, with key projects including implementing new canning lines and the refurbishment of old buildings at the historic site.

### Value Engineering

With over 30 years of experience gained working at the brewery, our integrity and customer focussed service helps Enigma to provide a bespoke service tailored to the client's exact needs. We are committed to delivering a superior quality service and exceeding the clients' expectations by consistently providing a professional service to continue building our long-term relationship. Enigma has an in-depth knowledge of the Burton-on-Trent site requirements and works in close partnership with Molson Coors, to provide cost savings and economical solutions.

Enigma Industrial Services provides a reactive emergency 24hr call-out service, 365 days of the year to minimise disruption and assist with any breakdowns that may occur. With an ethical approach, exceptionally high standards and unrivalled safety record explains why Molson Coors continues to retain our responsive services and rely on us to help keep the brewery site operational.
